On the agenda:

1. Pre-defense of theses at the Department of Computer Science: student registration and supervision.
2. Evaluation of the readiness of theses for defense.

Decisions:

The students defended their diploma projects based on the following criteria: quality of the conducted research, level of MVP , readiness, progress in accordance with the chosen type of diploma work, public speaking skills, as well as the availability and completeness of the submitted sections. Each of these aspects was taken into account when assessing the student's readiness for defense and the overall evaluation of their work.
